<p>"Page 1... Para. 5...</p> <p>The Country itself will call us to leadership to save her from chaos, her 'democratic' chaos in which she will be mired as the result of the bad Anglo-American influence."...</p> <p>"Para. 7...</p> <p>With extremist movements and with the Legionnaires particularly, it is difficult to establish where conviction ends and 'bluff' begins. This is why it is almost impossible to state precisely the degree to which Horia SIMA and his most important Legionnaires believe in this formula, of whether they spread it only to keep up the morale of the common guardist, which wavers enough after ten years concerning the number of new partisans they attract in this way in other countries."...</p> <p>"Page 4... Para. 8...</p> <p><u>THE NEGATIVE ACTION</u> We noted that Iron Guardists regularly sabotage and blackmail any activity of the non-Legionnaire resistance."...</p> <p>"The local application of a plan of action that embraces: The entire resistance movement, its chiefs and leaders beginning with the King himself: The powers that support the resistance which means the Americans in particular."...</p> <p>"The express confirmation which has been repeatedly given me here to the effect that it is a matter of an action and a plan ordered by Horia SIMA only strengthens evidence made concrete by all Legionnaire publications recently whether it is a matter of simple articles, newspaper articles or books having literary pretensions."...</p>

SIMA's decision, designed to show the intellectual character of the movement and the superior value of its members, obliges them to assume for themselves academic titles and the chronicle of the newspaper Curatorul Roman mentions often strange and sonorous names of 'doctors' or 'professors' under which names are hidden some of the assassins of Iorga and Madgearu."...

"Page 6...

On the other hand, the order of SIMA already mentioned to create fictitious titles, have obliged them to change even their names and insofar as troubled conditions in Germany permitted, to procure new identity papers, so that the identification of the old Legionnaire chiefs is difficult, at least those in SIMA's group."...

"Manzatu, former director of broadcasting under the SIMA government and well-known composer of light music, is known in Argentinian circles as 'Doctor' a much respected title in Argentina."...

"Page 8...

b. Lawyer Stan Ionescu is no doubt the most dangerous of the Rumanian refugees in Argentina."...

"But serious indications permit the conclusion that, as a personal friend of Horia SIMA and of the General Staff of the Iron Guard, he is the most capable agent in Argentina, as long as this can serve his personal interests."...
